

Ze'ev Kolman

Bio-Energetic Healer

THIS MONTH'S MESSAGE FROM ZE'EV

Summer Greetings!

I hope all is well with you. This is the time of year when we celebrate by gathering to assert affirmations about life. We say yes to life! Each group of people has its own values, but we essentially all agree that life is worth living.

So, with the festivities of the season upon us, keep in mind that dehydration can be a major problem for your energy level as you perspire in the summer heat. You might not see it, but you are exhaling moisture. The old adage, "drink 8 glasses of water a day" is a good one to stick with. If your mouth feels chalky, there is a good chance you are already dehydrated. Know the symptoms of being dehydrated during the hot months.

Have a wonderful summer and Happy July 4th!

Group Healings & Lectures

We conduct group healings every 2 weeks. Once a month we have lectures, which is a simple way to experience and learn more about bio-energetic healing without spending a lot of money. The lectures cover Healing, Spirituality, the Aura and Chakras. Following the lecture, an intense group healing meditation is conducted.

The Individual's Aura— or Template

Sometimes a healer creates his or her primary healing effect by supplying particular frequencies of etheric (higher) bio-energies to a client's etheric body. Mr. Kolman refers to this as the aura.

The aura is a holographic bio-energetic template surrounding the individual—a type of spatial wave guide that assists the molecular/cellular systems of the body to achieve proper organization, orchestration and energetic balance.

If the template is healthy, the body resides in a state of health. When the etheric body is distorted and its organized patterns become disrupted by a wide variety of influences, the physical body slowly follows suit by manifesting illness.

The organization of the aura controls the orderly cellular behavior of the body's systems. It is the aura of the etheric body to which Mr. Kolman actually directs his healing bio-energy. When the influence of the etheric body has totally ceased, as in death, component molecular parts return to the chaotic disorder of inorganic matter.

The individual aura is the wave

guide that controls the flow of life energy into the body. Patterns of illness occur at energetic levels before they become manifest at cellular levels. Dysfunctional subtle energetic changes in the etheric body may precede physical/cellular changes of an overt illness by weeks to months. Mr. Kolman can see that effect among some of his clients, and is able to predict upcoming symptoms of sub-clinical illness by reading one's aura.

Distance Healing

Distance healing is performed while you sleep or rest. When your body is resting, your chakras—your energy centers—open up. This is when Ze'ev can easily transmit electromagnetic energy from his mind into your energy field for the purpose of healing. You only need to know the time for your body to be "tuned into" the same wavelength during the distance healing session.

Ze'ev recommends distance healing for clients who are too far away or are unable to come to the office because of a busy schedule or illness. Distance healing is also very effective. It is just as powerful as a private session. In fact, it can even be stronger because the body is very open to receiving energy while resting. Some clients also experience tingling sensation during distance healing, or a wave of heat, while others experience no physical presence. The effects are the same. Sometimes a client will awaken during the time of the healing. If this happens to you, stay in bed in a relaxed state.

Distance healing works for many, but not for everyone. It depends on how long you have had the condition, how open you are to

healing, and also how well your body receives the energy for healing.

Here are the requirements for Distance Healing to be really successful.

Distance Healing Requirements

1. Photograph
2. Complete address
3. Telephone numbers
4. Date of birth
5. Direction of your head while sleeping. Is it facing north, south, east or west?
6. A list of the conditions you want to focus on.

Our thoughts are like radio waves that can be sent and transmitted beyond our physical location and received at the other end—provided there is a receiver tuned into the right wavelength. This energy is transmitted through the force of my thoughts to the client who *opens* his or her channels to the proper wavelength and *absorbs* the energy regardless of the physical distance between us.

Following is a testimonial from about a hospitalized accident victim and the distant bio-energetic healing by Mr. Kolman.

During the first 2 1/2 weeks of a 4-week stay in intensive care, a coma had been induced in order to allow maximum healing for Mr. E's broken ribs, leg, hip and shoulder, and a bruised heart and lung. He had two surgeries - first on his femur and tibia and then on his shoulder.

TESTIMONIALS

The same day he was moved from intensive care, and while he was still on a respirator, numerous attempts to get him to breathe independently had failed. Ze'ev Kolman sent distant healing directly to Mr. E in Mercy Hospital on Long Island. His wife, sitting at his bedside, felt a tingling sensation during the healing session, another example of connecting sensations.

The following morning Mr. E began to breathe on his own. The medical staff was amazed. They still thought he would need the respirator later that day, but he never did. On the second day--much to the amazement of the medical staff--his intravenous feedings were stopped and he began to eat soft foods.

Mr. Kolman sent a second distant healing. Again, Mr. E's wife felt the energy, a tingling sensation. She also noticed static on the TV screen. When she walked over to turn it off, she was startled to find that it had never been turned on.

The medical staff was stunned to find Mr. E. sitting up and eating lasagna on the third day. He had undergone physical therapy and was still recuperating from his severe physical injuries, but was already getting around with the help of a walker and continues to make progress. The doctors and nurses were so impressed with the results that they asked Mr. Kolman about the distant healings.

ANNOUNCEMENTS & NEWS

The Dangers of Cigarette Smoking

According to the Web site *DrDonnica.com*, "In 2001, more than 351,500 American children under age 18 started smoking; of these, more than 112,000 will eventually die from a smoking-related illness. Seem surprising?"

"Tobacco use is *directly* responsible for more than 25 causes of death and is a risk factor for numerous others. Estimates are that 4 million people will die of tobacco-related illnesses worldwide this year; by the 2020's, the death toll will increase to 10 million deaths per year. In the US, cigarette smoking accounts for approximately 300,000-430,000 deaths—more than 10 times as many as die from breast cancer.

"Numerous studies have shown that women are more negatively affected by smoking than men. While smoking overall has decreased more than 40% since 1965, lung cancer deaths among women have increased 150% between 1974-1994 compared to only a 20% increase in men. Half of all heart-related causes of death in women younger than 65 are due to cigarette smoking. Many women who smoke are surprised to find out that lung cancer surpasses breast cancer as the leading cancer killer of women. In fact, one out of 3 cancer deaths are related to smoking. But tobacco use does not just cause lung cancer: it is linked to cancers of the mouth and throat, esophagus, pancreas, bladder, breast and cervix."

This medical news is very

serious and relates to all women worldwide.

Just knowing these statistics should be enough to get people to quit smoking, but it doesn't. Why? Because smoking is one of the most difficult addictions to quit. Many smokers quit for a couple of months, and then return to it when something negative happens to them or their stress levels increase.

If you do research online, you will find many sites that prove to you just how detrimental smoking can be. Mr. Kolman has enormous success with clients who want to quit smoking—even with those who don't want to quit, but know that they need to.

According to *www.news-medical.net*, "A study carried out at the Department of the University of Granada has examined, both at a quantitative and a qualitative level, the reasons for the increase in the use of cigarettes among women experienced in Spanish society during the last 50 years.

"One of the main conclusions of this study is that the use of cigarettes has become very important for women in order to face up to stress and anxiety, control appetite and body weight, and facilitate interaction in social relations."

How tragic to discover that the appearance and socializing is more important than the health of the body.

Another informative Web site about women and smoking can be found at: *www.preventive-health-guide.com/nutrition-women.html*.

"It's also incredibly important for women to quit smoking and avoid second-hand smoke as much

as possible. Cigarette smoke contains more deadly free radicals than any other widely encountered substance, and can eventually lead to lung cancer, and lung diseases like asthma."

And when one studies the research about men and smoking, the news is just as alarming.

More research from a publication of the James Buchanan Brady Urological Institute of Johns Hopkins Medical Institutions, in an article about men and cancer: *Prostate Cancer is Worse in Men Who Smoke*.

"The more a man smokes, the higher his odds of being diagnosed with cancer that is more aggressive, and that has already spread beyond the prostate. The relationship is 'dose dependent' - which means that each cigarette raises the risk just a little bit, like the fabled straws on the camel's back."

Fortunately, the good news is:

"If a man stops smoking before he is diagnosed with prostate cancer, he may slow the development of the disease, or may have a less severe—and more likely curable—form of it."

QUIT SMOKING FOR GOOD!

And of course, even more encouraging news comes from Mr. Kolman. If you prevent disease through bio-energetic maintenance, your health will improve exponentially.

Mr. Kolman has many testimonials from people who have quit smoking after working with him.

It makes sense to get help if you are a smoker, or if someone you know smokes and you are forced to inhale their second-hand smoke. Think of your own health, the health of your children and loved ones. Call Mr. Kolman today to set up an appointment to quit smoking! **212-245-1715**
